

Container Drayage

Gulf Winds offers unmatched container and intermodal drayage capacity in Houston and Dallas/Fort Worth at both port and rail terminals. As the largest container hauler on the Gulf Coast, Gulf Winds offers unmatched local and over-the-road delivery capacity in our region.

Capacity

As the largest container hauler in the Gulf, we offer unmatched local and over-the-road delivery capacity in our region. Our modern fleet of trucks and chassis include tri-axle, slider and combo equipment to meet all of your container drayage requirements. In addition, our container management tool, gwiTrackSM, allows us to manage deliveries around the country from a centralized web-based reporting platform ensuring you have the tools in place to manage your business.

Strategic Terminal Locations

In Houston, Gulf Winds offers convenient terminal locations adjacent to the BNSF intermodal yard as well as the Port of

Houston's Barbour's Cut and Bayport container terminals. In Dallas/Fort Worth, we operate secure yards in close proximity to both the BNSF–Alliance and UP–DIT, allowing us to quickly and easily access your cargo.

Safety and Security

Gulf Winds' secure yards are fully-fenced and monitored 24/7 by on-site security through a top-rated security company. Cargo Security is a top priority for our company.

Certifications

Gulf Winds is Hazmat and TABC-certified with a "Satisfactory" Motor Carrier Safety Rating.

Overweight Cargo Permits (1547) (Super-Heavy)

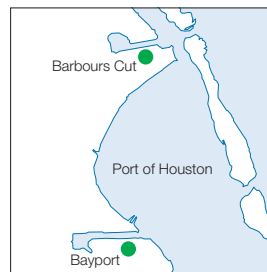

All of Gulf Winds' trucks are individually permitted through the state of Texas to haul 5% over legal gross and 10% over legal axle weight (Super Heavy Permit). In addition, Gulf Winds also maintains a permit through Harris County that allows us to legally haul up to maximum container capacity between the Port of Houston's Barbour's Cut and Bayport container terminal and our strategically-located port warehouse facilities. These permits allow our clients to maximize inbound and outbound cargo weight resulting in substantial ocean and land transportation savings opportunities.
