

## Out-of-Gauge & Project Cargo

*Gulf Winds operates heavy lift yards at the Port of Houston's Barbours Cut and Bayport facilities, providing our clients with the ability to minimize or eliminate fees associated with permitting out-of-gauge cargo. Our staff of warehousing professionals has extensive experience in out-of-gauge handling including heavy lift and flat-rack loading and lashing.*

### Special Handling Services

**Transload Services** – Comprehensive resource for all flat-rack and open-top containers.

**Securing Cargo** – Strapping, banding, chains & binders, blocking & bracing and nylon lashing are available to ensure the cargo is secure for transport.

**Cargo Protection** – Custom crating and tarping are available to protect cargo during shipping.

**Transportation Services** – Gulf Winds will arrange all transportation services necessary to support the movement of your out-of-gauge flat-rack and open-top containers both locally and over the road. We will also arrange for permits and escorts as needed.

### Cargo Types

Gulf Winds can handle a variety of OOG or project cargos such as: pipe, steel, machinery, oil field equipment, and much more.

### Cargo Handling Equipment Types

Gulf Winds has a variety of equipment in order to handle multiple cargo types safely and effectively.

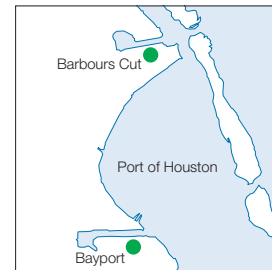

- Heavy Lifts
- Top Lifts
- Overhead Cranes
